Dear Scott Caron
CC: Tim Takekoshi, PTI files

I'd like to take this opportunity to thank Connelly Insulation and especially Tim for the work that your company did for this project at the Snap Lake mine site.

It was wonderful to have a tradesperson such as Tim on site that did an exceptional job with the work in the timeframes given. Tim has a great work ethic and I know that he represents the Connelly Insulation company in how he does his work.

Please thank Tim on behalf of myself and the project for working safe on this site, showing others of the PTI staff methods to improve the work they do for PTI.

The work that Tim completed and the professionalism in how he achieved the tasks truly adds completion to what the client sees and expects.

On behalf of PTI I would be happy to entertain Connelly Insulation on any future projects that we may be part of.

Yours with great appreciation
Bruce Drummond

PTI Site Project Manager
2010 DeBeers Snap Lake 400 person accommodations project.
